

IMPROVING DIALYSIS

CHOICES FOR PROFESSIONALS AND PATIENTS

PRESENT

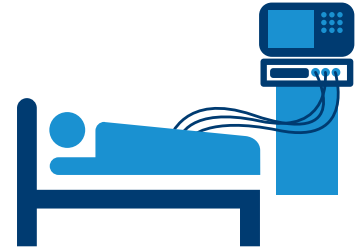

IN-CENTRE / HOSPITAL HEMODIALYSIS

Treatment received in a centre /
hospital via hemodialysis
(cleaning the blood through
a machine by professional)

Occurs during the day, 3 times
per week, for 5-7 hours per day

FUTURE

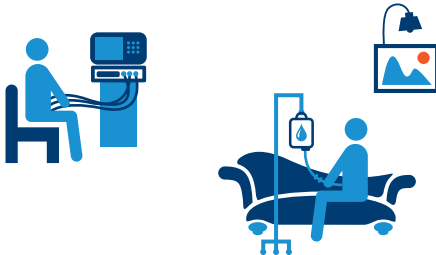

HIGH DOSE HEMODIALYSIS

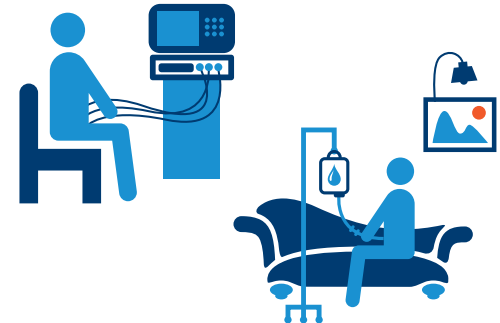

Treatment received at-home
or in-centre (by patient or
healthcare professionals)

Short daily, quotidian or nocturnal
treatment via a machine

@HOME

@HOME

PERITONEAL DIALYSIS (PD)

Treatment received at home,
at work or while traveling

Can be done by patient daily
via a catheter in the abdomen
