Organization of the MIS programme

- · Essential for company management.
- · Provides monthly global IVD industry flash reports by country.
- Participating companies report national net invoiced sales for 125 IVD categories.

Data Input

- ► The participating IVD companies report national net invoiced sales (end-user) directly to Club Inter Pharmaceutique (CIP)*
- Frequency: on a monthly basis
- Reporting is done for 7 testing categories, comprising around 180 separate product groups (level 2 of the GIVD classification**), in local currency:

• Clinical Chemistry

(including enzymes, substrates, electrolytes, glucose test strips, other rapid testing and POC)

• Immunochemistry

(including allergy, tumour markers, cardiac markers, hormones, vitamin tests, TDM, DOA, autoimmunity, inflammatory disease markers, rapid testing and POC)

• Haematology/ Haemostasis/ Immunohaematology/ Histology/ Cytology

Microbiology Culture

(including bacteriology, virology, mycology and parasitology)

• Infectious Immunology (comprising bacteriology, virology incl. hepatitis/retrovirus, mycology and parasitology)

• Genetic Testing

• Instruments, Spare Parts, Service, Software

(including instruments for chemistry, immunochemistry, blood gases, electrophoresis, haemostasis, blood grouping, histology/cytology, flow cytometry, mass spectrometry, microbiology, nucleic acid testing, rapid testing & POC instruments and others) In addition the MIS provides data on specific testing segments, e.g.:

- Rapid Testing and POC (without devices)
- Diabetes Management (strips, meters and consumables)
- Infectious Immunology NAT reagents and excl NAT reagents

* Club Inter Pharmaceutique (CIP) is a not-for-profit data handling organisation based in Paris

** Global IVD (GIVD) classification. MedTech Europe has developed a classification system for all IVD products that is regularly updated according to market needs and changes.

See MedTech Europe website: www.medtecheurope.org

Data Output

ONLY participating companies have web access to consolidated data from CIP for the countries in which they participate.

- Rolling 3 months (R3M)
- 2 years history

Why join?

- · Essential for company's strategic marketing and management.
- · Mirrors IVD market changes effectively.
- · Delivers IVD market size, share and growth trends in a short time.
- Provides market share performance and development view tailored to company's geographic needs.
- · Eliminates dependency on expensive consultant-provided market estimates.
- Web access.

About MedTech Europe

MedTech Europe is the European trade association representing the medical technology industries, in diagnosis, prevention and cure. MedTech Europe started as an alliance in October 2012 formed by two organisations - EDMA, representing the European in vitro diagnostic industry; and Eucomed, representing the European medical devices industry. Our members include European national medical technology associations, distributors, and manufacturers of Medical Technologies operating in Europe, Middle East and Africa. MedTech Europe's mission is to make innovative medical technology available to more people, while helping healthcare systems move towards a sustainable path. We also promote medical technology's value for Europe through our five-year industry strategy, which focuses on value based innovations that support more sustainable healthcare systems. MedTech Europe provides technical, regulatory and market research information to our members.

The European in vitro diagnostic industry is a market worth around €11 billion. Driven by research and development, 95% of the industry is comprised of small and medium size enterprises and approximately 1 billion euros per year is reinvested in R&D.

Developed by MedTech Europe, the Global Diagnostic Market Statistics (GDMS) and Management Information System (MIS) programmes provide a comprehensive overview of the latest market trends based on the Global IVD Product Classification (GIVD). For more information, visit http://www.medtecheurope.org.
