Medical Technologies – An Enabler of the Digital Transformation of Health and Care

Digital Health full ecosystem solutions

PATIENT MANAGEMENT:
• Chronic disease management
• Continuous remote patient monitoring
PRODUCTIVITY:
• Data integration and AI solutions
• Robotic surgery decision-making systems

Digital Future
• Overcoming space and time
• Augmented decision making
• Empowered patients
• Increased accessibility

Prevention
• Automated and molecular testing
• Implantable recorders

Diagnosis
• Automated and molecular testing
• Implantable recorders

Therapy
• Chronic disease treatment
• Robotic surgeries

After Care
• Digital ecosystems for post-operative care
• Remote rehabilitation

Monitoring
• Remote follow-up from implantable devices
• Advanced analysis of monitoring data

Healthcare reality today
• Ageing population
• Varying patient outcomes
• Shortage of medical staff
• Limited access to healthcare in remote areas

Accelerating new ways of healthcare delivery
• Personalised care
• Preventive care
• Remote care
• Integrated care
