MedTech Europe’s purpose is to make innovative medical technology available to more people, while helping healthcare systems move towards a more sustainable path.

Our Purpose
MedTech Europe’s purpose is to make innovative medical technology available to more people, while helping healthcare systems move towards a more sustainable path.

Our Mission
Be a trusted partner to EU policymakers and other key stakeholders

Facilitate access to medical technologies for people, patients, healthcare professionals, healthcare operators and healthcare systems

Contribute actively to EU health-related policies and legislations

Highlight the value and contribution of medical technologies, services and solutions, for patients, healthcare systems and society

Foster the highest ethical standards in all interactions between the medical technology industry and healthcare professionals and organisations

What We Do

Our Purpose
MedTech Europe’s purpose is to make innovative medical technology available to more people, while helping healthcare systems move towards a more sustainable path.

Our Mission
Be a trusted partner to EU policymakers and other key stakeholders

Facilitate access to medical technologies for people, patients, healthcare professionals, healthcare operators and healthcare systems

Contribute actively to EU health-related policies and legislations

Highlight the value and contribution of medical technologies, services and solutions, for patients, healthcare systems and society

Foster the highest ethical standards in all interactions between the medical technology industry and healthcare professionals and organisations

About MedTech Europe
MedTech Europe is the European trade association for the medical technology industry including diagnostics, medical devices and digital health.

Our members are national, European and multinational companies as well as a network of national medical technology associations who research, develop, manufacture, distribute and supply health-related technologies, services and solutions.

The MedTech Industry in Europe
Creating solutions for a healthier tomorrow

Contribution of the Industry

**WE HELP PATIENTS**
- By diagnosing health problems accurately and at an early stage
- By replacing, repairing and sustaining failing body functions
- By monitoring patients’ conditions
- By accelerating recovery and keeping people healthy

**WE SUPPORT HEALTHCARE PROFESSIONALS**
- By delivering timely and accurate diagnostic information
- By reducing recovery times and surgical complication rates
- By giving more time to health professionals to focus on tasks where they add most value
- By using data to improve workflow

**WE IMPROVE HEALTHCARE SYSTEMS & SOCIETY**
- By developing valuable technologies that deliver efficiency
- By helping citizens to stay socially and economically active
- By preventing serious complications of chronic disease
- By bringing advances in big data to hospitals of all sizes

MedTech Industry in Numbers

- **€110 billion** market in Europe
- 50,000+ medical devices
- 50,000+ in vitro diagnostics tests
- 27,000+ companies of which 95% are SMEs
- 675,000+ employees

INNOVATION DRIVEN INDUSTRY
#1 in filing patent applications
