Executive's Overview of EUDAMED

Date: Thursday, 12 February 2026 **Time:** 15:30–16:30 CET

High-level overview of what EUDAMED will deliver (and what it will not), Key transparency aspects, main timelines and obligations influencing executive decisions for strategic planning.

Aimed at business leaders and commercial executives (Compliance & Regulatory, R&D, Quality, Labelling, Sales, Product Data Management, teams support Notified Body audit)

UDI & Device Registration: Technical Deep-Dive

Dates: Monday-Tuesday, 23-24 February 2026

Time: 14:00–17:00 CET (both days)

Detailed, practical training for technical experts on UDI and device registration in EUDAMED, including legacy and SPP registration, key data elements, data maintenance and technical submission methods (UI/XML/M2M).

Aimed at regulatory and technical experts submitting data to EUDAMED.

MedTech Europe executive's overview of EUDAMED: Public Data Exposure and Governance

The educational webinar focuses on the following key aspects influencing executive decisions for EUDAMED readiness

- ✓ What will EUDAMED actually deliver and what will it not?
- ✓ Where do transparency and data quality create business risk?
- ✓ Which obligations and timelines matter most for strategic planning?
- ✓ What executive decisions must be taken now on governance, funding, and operating model?

Aimed at business leaders and commercial executives in Compliance & Regulatory, R&D, Quality, Labelling, Sales, Product Data Management, teams support Notified Body audit
